

**Debate club runs every Friday until 4pm**

We have varied afternoons depending on the group that is there and the direction the arguments take. It is mostly informal debates and discussions but sometimes we have opening speeches like in an official competition, and public speaking exercises. The topics may be current events, moral or ethical situations, policy discussions, environmental concerns... the list is extensive. More information can be found on the debate page, most easily accessed via Central's library page.
